

PROJECT PROPOSAL

Title:	“Tell me something about you”
Main ideas of the project:	The idea is to make pairs with students from Spain and students from an English-speaking school in Europe. We, the teachers, will make the pairs and communicating our students the name of their partners. From now on, the pairs will work together. They will send information one to each other by e-mail (TwinSpace). They must save this piece of information because they will need it later. This way, the students will be exchanging and sharing information about them, their town, likes and dislikes, hobbies, etc. When all the information has been sent the students know things about their partners but they don't know their partners' face. Then the Students will send a photo if it's possible. Each student will have to guess who his partner is. The students will make a video and will send it to their partners. In this video the students have to introduce themselves. And after watching their partners' videos they could check if they were right when they chose the photo. With all this information, the students will make two Personal Cards: Me / My Turkish Friend or Me / My Spanish Friend. Finally, they send the work to their partners. We can also publish the work on our Websites.

Language:	English
Country:	Spain
My name:	Jesús Enrique Azpíroz Illán
My e-mail:	jesusazpiroz@hotmail.com
Subjects:	Primary Subjects and English
Name of the School:	CEIP Marismas del Tinto
URL:	http://www.juntadeandalucia.es/averroes/~21003104/
Number of students:	15
Age:	From 11 to 12.
Areas of interest:	Cultural aspects, Foreign Languages, CIT.
Timing:	5 months
CIT tools:	Video, e-mails, Power Point, TwinSpace, chat...
